Getting started with SaaSTech Servers

Create your free account before contacting support. Keep the detachable record private.

1 Create or sign in to your account

Use an email you can access and follow the secure account prompts. No purchase is required.

2 Keep your customer number and call-in PIN ready

Support may ask for both during a call you initiated through verified Contact Us.

3 Enable two-step verification

Have your registered phone or authenticator device with you when calling SaaSTech Servers; you may need it to sign in or verify the account yourself.

Create My Account | saastech.net/create-account

Contact Us	Account Learning Centre	Delegate access playlist

On Contact Us, check your language/region and currency settings, then use the local contact number shown there.

The Account Learning Centre covers setup and delegation for Website Builder and other services. Choose Work with delegates.

Cut or tear out the card below before sharing this workbook

PRIVATE account reference and call-in authentication

Organization or name _____

Account sign-in email _____

Customer number _____

Call-in PIN _____

Domain names _____

Reviewed on _____

Update your call-in PIN at pin.saastech.net or in My Account after signing in.

Never share your account password or call-in PIN with someone helping manage your services. Each helper should create their own SaaSTech Servers account and receive only the delegated permissions they need. Review purchase/payment and account-security permissions carefully.

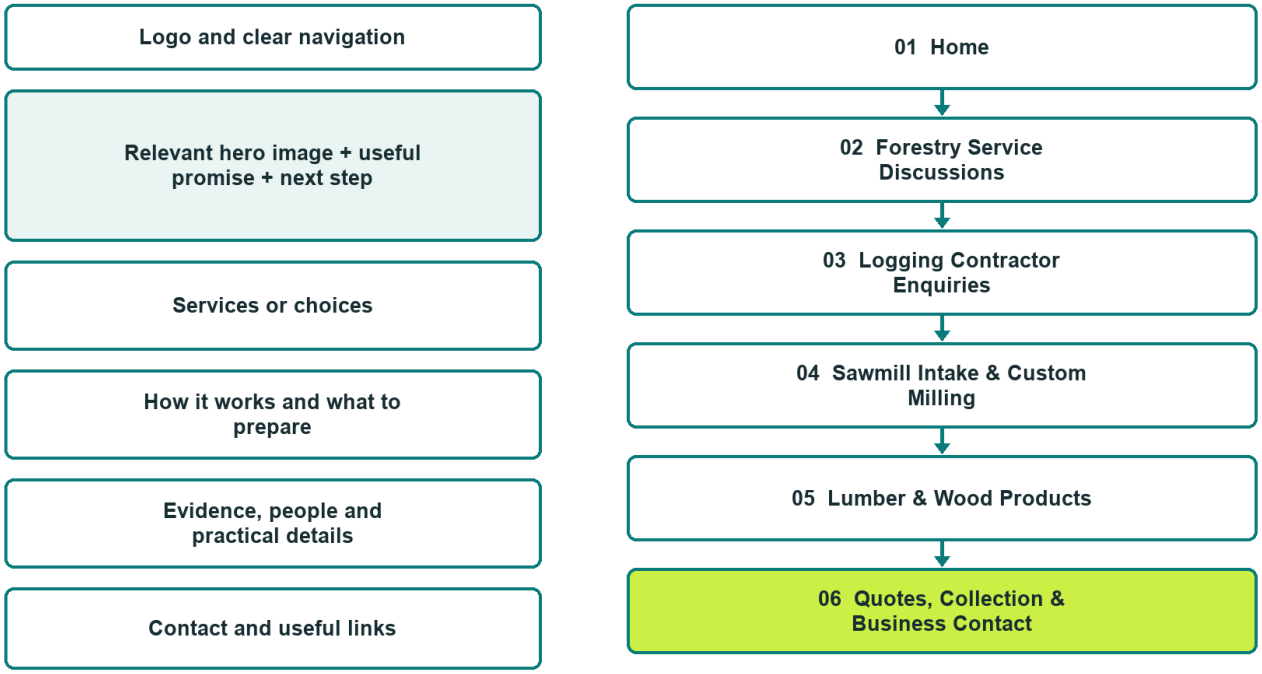

For official support, give the call-in PIN only during a call you initiated through verified Contact Us. Never share passwords, sign-in verification codes or recovery codes.

Do not record passwords, verification/recovery codes, security answers or payment details here. Keep this card safe and cut or tear it out before sharing the workbook.

Use a secure password manager for passwords and recovery information.

Forestry, Logging & Sawmills Website workbook

A practical workshop for a 6-page website. Study the example, plan the content and draft your own version in Word or on paper.

Plan → Draft → Build → Test

Captured demo edition. Study the unpublished six-page example. Paired desktop and mobile views, Editor Highlights, Themes and Paint settings appear in the industry gallery.

Explore Website Builder and compare plans

Before you build

Your business supplies the facts. Prairie Treeline Woodworks is a fictional teaching example, not a live service.

- ☐ Choose a contractor or wood-product enquiry
- ☐ Verified business identity, services and current contact information
- ☐ A clear enquiry, review and confirmation process
- ☐ Choose original photographs and confirm permission to use them.
- ☐ Keep private customer records out of public website forms.

Your audience and the action you want them to take

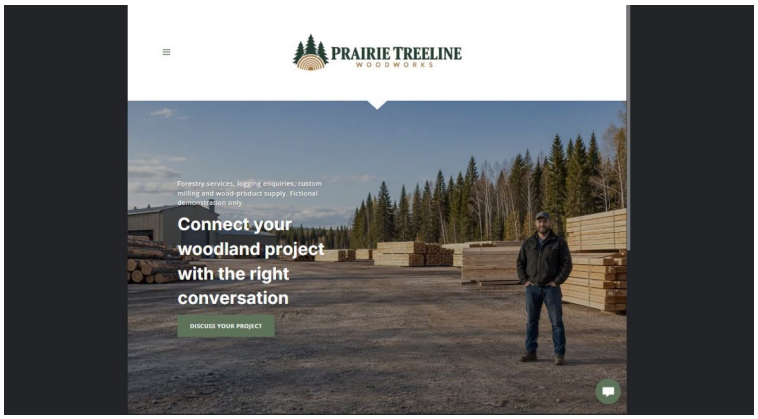

Facts to verify and people who must approve them

5 Lumber & Wood Products
6 Quotes, Collection & Business Contact

01 Home

Give this page one clear job in the customer journey.

Actual desktop Website Builder preview. Its paired mobile view appears in the industry gallery.

Sample wording — adapt and verify

Connect your woodland project with the right conversation

A woodland-service discussion is different from a log intake or lumber enquiry.

Choose the appropriate route, describe the material or project you already know about, and let the team confirm its role and the information required.

Enquiry route: Project Enquiries. The Home button is Discuss your project.

Website advice

Separate forestry-service and logging enquiries from sawmill intake and wood-product supply; publish only confirmed capabilities and sourcing information.

Your draft: Home

Write in the voice of your own business. Use facts you can verify, not promises copied from the example.

Headline and short introduction

Main content and details visitors need

Button wording and destination

Photo choice, permission and facts still to confirm

Partner check: can someone unfamiliar with the business find a useful next step?

02 Forestry Service Discussions

Give this page one clear job in the customer journey.

Actual desktop Website Builder preview. Its paired mobile view appears in the industry gallery.

Sample wording — adapt and verify

Start with the project and the intended outcome

Describe the general project area and the outcome you want to discuss with a qualified reviewer.

The coordinator can explain which services are offered and which questions need a different professional or authority.

Enquiry route: Project Enquiries. The Home button is Discuss your project.

Website advice

Explain accepted planning and woodland-service enquiry categories without giving management or environmental advice.

Your draft: Forestry Service Discussions

Write in the voice of your own business. Use facts you can verify, not promises copied from the example.

Headline and short introduction

Main content and details visitors need

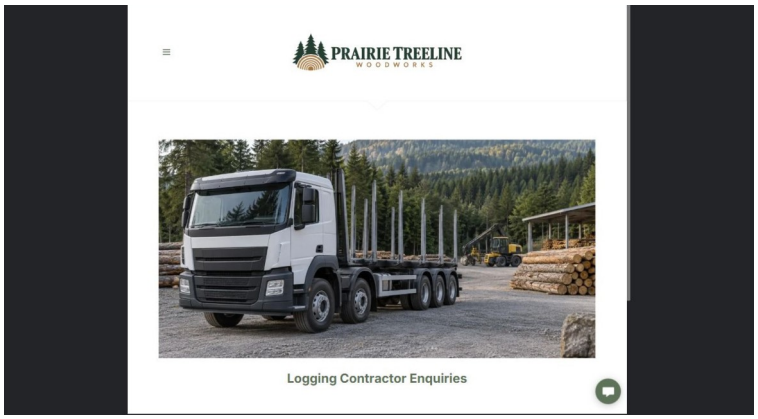

Button wording and destination

Photo choice, permission and facts still to confirm

Partner check: can someone unfamiliar with the business find a useful next step?

03 Logging Contractor Enquiries

Give this page one clear job in the customer journey.

Actual desktop Website Builder preview. Its paired mobile view appears in the industry gallery.

Sample wording — adapt and verify

Confirm the scope before work is accepted

Share the broad work category, project stage and coordinating contact.

Scope, authority, documentation and scheduling must be reviewed through the operator's process before the contractor accepts a project.

Enquiry route: Project Enquiries. The Home button is Discuss your project.

Website advice

Distinguish contractor capability discussions from forestry planning, legal authority and timber sales.

Your draft: Logging Contractor Enquiries

Write in the voice of your own business. Use facts you can verify, not promises copied from the example.

Headline and short introduction

Main content and details visitors need

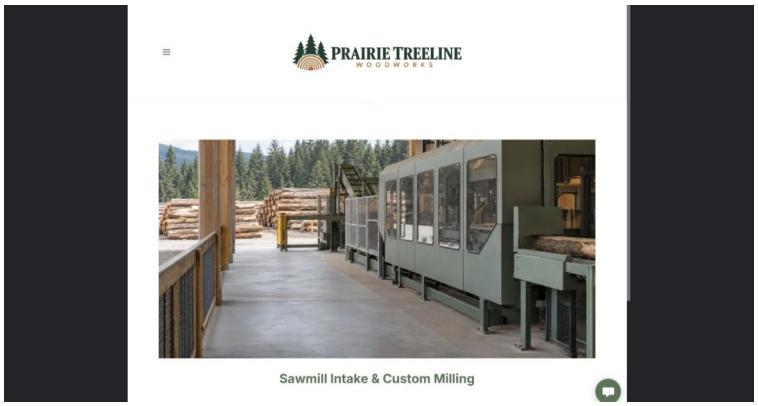

Button wording and destination

Photo choice, permission and facts still to confirm

Partner check: can someone unfamiliar with the business find a useful next step?

04 Sawmill Intake & Custom Milling

Give this page one clear job in the customer journey.

Actual desktop Website Builder preview. Its paired mobile view appears in the industry gallery.

Sample wording — adapt and verify

Discuss intake before bringing material

Ask whether the mill is accepting the type of material you want to discuss.

Staff will explain the details needed for an intake review and which dimensions, finish expectations and collection arrangements must be agreed before delivery.

Enquiry route: Project Enquiries. The Home button is Discuss your project.

Website advice

Explain material-acceptance enquiries and milling specifications without promising recovery, dimensions or acceptance.

Your draft: Sawmill Intake & Custom Milling

Write in the voice of your own business. Use facts you can verify, not promises copied from the example.

Headline and short introduction

Main content and details visitors need

Button wording and destination

Photo choice, permission and facts still to confirm

Partner check: can someone unfamiliar with the business find a useful next step?

05 Lumber & Wood Products

Give this page one clear job in the customer journey.

Actual desktop Website Builder preview. Its paired mobile view appears in the industry gallery.

Sample wording — adapt and verify

Describe the product you need

Use the exact dimensions and product description you need when requesting availability.

Ask for current product documentation and confirm suitability with the appropriate project professional rather than relying on a display photograph.

Enquiry route: Project Enquiries. The Home button is Discuss your project.

Website advice

Present verified species, dimensions and finish categories while keeping stock and intended-use questions separate.

Your draft: Lumber & Wood Products

Write in the voice of your own business. Use facts you can verify, not promises copied from the example.

Headline and short introduction

Main content and details visitors need

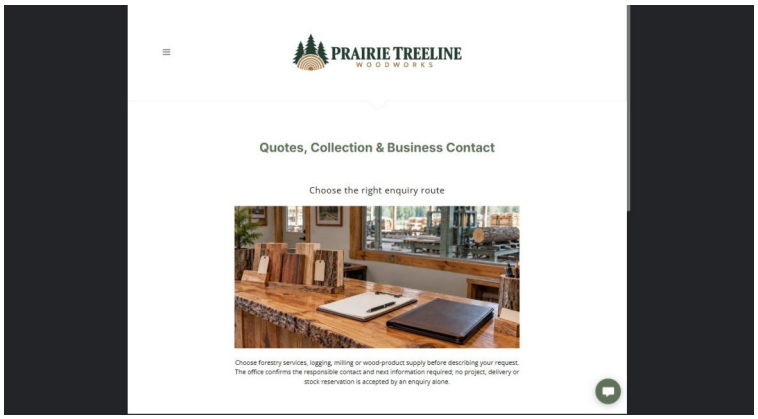

Button wording and destination

Photo choice, permission and facts still to confirm

Partner check: can someone unfamiliar with the business find a useful next step?

06 Quotes, Collection & Business Contact

Give this page one clear job in the customer journey.

Actual desktop Website Builder preview. Its paired mobile view appears in the industry gallery.

Sample wording — adapt and verify

Choose the right enquiry route

Choose forestry services, logging, milling or wood-product supply before describing your request.

The office confirms the responsible contact and next information required; no project, delivery or stock reservation is accepted by the enquiry alone.

Enquiry route: Project Enquiries. The Home button is Discuss your project.

Website advice

Provide separate project, milling and product routes with clear acceptance and confirmation boundaries.

Your draft: Quotes, Collection & Business Contact

Write in the voice of your own business. Use facts you can verify, not promises copied from the example.

Headline and short introduction

Main content and details visitors need

Button wording and destination

Photo choice, permission and facts still to confirm

Partner check: can someone unfamiliar with the business find a useful next step?

Test before publishing

Review the captured desktop and phone journey. The fictional form has Name, required Email, required Enquiry category and Message. Recipient blank, attachments off; no submission or delivery test. Configure approved delivery and consent before a real launch.

□ Fictional demonstration only. No forestry prescription, harvesting instruction, land-rights advice or structural timber suitability assurance is provided. Verify authority, qualifications, accepted work, species descriptions and every environmental or certification claim.

□ Verify every service description, contact route and operating detail.

□ Replace fictional identity and example information before a live launch.

□ Test enquiries, links and downloads on desktop and mobile.

□ Keep confidential records in approved private systems.

□ Obtain operator approval for public wording and images.

□ Check every link, form destination, download and confirmation message.

□ Check logo contrast, hero framing, text sizes and image loading.

□ Save a named backup and assign a content-review date.
